Danger: Ultraviolet radiation. Follow instructions to avoid over-exposure. As with natural sunlight, over-exposure can cause eye and skin injuries and allergic reactions. Repeated exposure may cause premature aging or skin cancer. Wear protective eyewear. Failure to use protective eyewear may result in severe burns or long-term eye injuries.

UVScan 360

Royal Sun UVScan

The newest additions to the Royal Sun line, the revolutionary *UVScan 360* & *UVScan 180* feature state-of-the-art technology in an attractive and ergonomic design. A wonder of engineering, the *UVScan* line stands at the forefront of a new generation of high-performance, cost-effective tanning beds.

A Complete Revolution

Features:

- Uniform UV output with new Heraeus self-contained high-pressure lamps
- Over 75% more effective output per watt with a high-efficiency glass reflector design that never develops hot spots or weak spots
- Adaptive temperature management with multiple-speed, high-pressure body cooling system
- Active monitoring system with upper and lower body scanners to ensure uniform coverage and optimal comfort throughout the tanning session (UVScan 360 model)
- Exceptional low-maintenance design with an all ball bearing movement system, intelligent architecture and no complex wiring
- Easy lamp replacement with no tools required—simply clip on and plug in
- Effective cooling without a complex exhaust kit
- Suitable for the average 2.75 X 2.5 m (9 X 8 ft.) room
- Durable construction with an all-metal structure and powder coating paint

Available Options:

- With sufficient quantity, multiple color options are available.

Royal Sun UVScan 360 & 180

Royal Sun UVScan 360
